MaasInvest is a professional investment company, focused on growth capital specifically for Dutch ambitious entrepreneurs (SMEs). Since its establishment in 2009 MaasInvest proved her added value and built a solid and successful track record.

The equity of the company is funded by its Founder & CEO, Maasbert Schouten, who started several successful companies himself from 1993, e.g. AFAB Financiële Diensten Holding N.V. (developed from one-man business to a holding with 1,000 employees) and won the prestigious Best Managed Companies competition twice under his leadership as Chairman of the Executive Board. Furthermore he served as Chairman of the Supervisory Board and was the owner of professional football club Vitesse, which he sold to a Georgian entrepreneur in 2010. Currently Maasbert is e.g. Member of the Advisory Board of Main Capital IV (a professional private equity fund focused on the software industry with an exceptionally good track record) and Advisory Board Member of Committed Capital (also a successful PE fund focused on SMEs).

MaasInvest is not only investing directly, but also invests in complementary and distinctive other investment companies and funds.
